#### TOURING WORKSHOPS

ColdTowne Theater is a nationally recognized improv and sketch comedy training center, boasting the largest improv student enrollment and the best teachers in the South.

Our students have gone on to work for HBO, Second City, UCB, Boom Chicago and more! Over the last 13 years, we've honed our curriculum and teaching techniques to accommodate all interests and skill levels. Got a community theater that wants some improv training or a college group that wants some professional coaching? We got your back!

**LATINAUTS:** Come witness the voyages of the Starship Edward J. Olmos. Their 10-year mission: to explore new worlds, seek out new resources for their home planet Earth, and to passionately go where no Latinx has gone before.

Last Year's B. Iden Payne Winner for "Best Improv Production," LATINAUTS takes some of Austin's funniest improv

comedians, who just so happen to be Latinx, and puts them where we all want to see Latinos and Latinas: in a telenovela set in outer space.

**MISSED CONNECTIONS:** Inspired by Craigslist Missed Connections, this show explores the sentimental, fantastical, and downright raunchy nature of your city's most impersonal personal ads. Celebrate love in all of its random weirdness! Regular nominee for "Best Improv Production!"

**COLDTOWNE TOURCO:** Our perennial hit at New York City's Del Close Marathon, the ColdTowne Tourco is made up of some of our very best touring improvisers. This cast is well versed in multiple types of improv that are guaranteed to bust your gut and have you doubled over in laughter, as they take audience stories and suggestions and weave them into hilarity.

**VICTROLR:** Our hit improv and sketch comedy podcast Victrola features a murderers row of Austin talent - part radio play, part improvised chaos and all hilarity. A national finalist in Earwolf's Contest4Improv4Humans, Victrola can come to your improv venue or college to do a live recording and even feature some of your talent!

#### DELUXE TEAM BUILD AND COMMUNICATION WORKSHOP - Does your team

need some group bonding or to blow off some steam? In our customized Team Building and Communication Workshop, we'll introduce participants to the principles of improv–Positivity, Trust, Authenticity, Playfulness, Empathetic Listening–in this wildly entertaining, hilarious program!

Best of all, we'll learn techniques to apply those principles directly to the workplace. We'll find the right balance between active listening and thinking on your feet, and how to create an environment where we can create win-wins for your team and the clients they interact with.

In the final 30 minutes, participants will perform short improv sets for each other and engage in a debrief, where they will take away powerful, practical communication tools.

#### **PROGRAM OVERVIEW:**

HOUR ONE: We have your team participate in deceptively simple theater games that introduce and work basic improv collaboration and communication skills of thinking on your feet, positivity, trust, and listening.

HOUR TWO: Longer form exercises that work the same muscles, but are more complicated and "risky." Exercises are cleverly tailored to improve conflict resolution, finding win-win scenarios, dealing with the unexpected, and creating a positive environment for collaboration.

HOUR THREE: We'll do a deep dive into your team's processes and work with you to design activities customized to smooth over any rough patches we find!

#### **PRICING:**

2-3 Hours, 4 Facilitators = \$3,000

## TESTIMONIALS

## HERE'S WHAT SOME OF OUR CLIENTS ARE SAYING:

"In my organization, there is a lot of fear of simply picking up the phone, calling on a lead, and talking to someone. Improv comedy removed that fear from me, allowing me to confidently plow through leads, generating \$700k+ of pipeline in a quarter."

#### - JADE LONG, NATIONAL INSTRUMENTS SALES LEAD

"We didn't know how this tough audience would respond, but everyone was talking and laughing about it this morning! I even heard a discussion at breakfast about how much they thought it would help them and their sellers in the field. [ColdTowne] nailed all the "associations" to what they encounter in real life, and building those skills will enable them to have much more compelling customer meetings. So well done! And [ColdTowne] were fabulous and funny MCs!"

#### - DONNA WOTTON, NATIONAL INSTRUMENTS SALES MANAGEMENT CONFERENCE

"The 2 hour session was a resounding success - in terms of getting the team to learn some new skills and techniques, having a huge impact on team bonding and connection, and [ColdTowne's] leadership in helping us make the connections between the improv work and the work that our team does. Thank you for the helping us create a relevant and fun experience for our team!"

- DONALD WYSOCKI, INDEED.COM PRODUCT CONFERENCE

"[Healthgrade Innovation Conference Attendees] learned some techniques to really help them in work situations, like active listening/trusting and the concept of "yes, and." PLUS some bonds were built through sharing a fun and unique experience, helping to connect people that may have never spoke to each other previously."

#### - LISA MEADE, HEALTHGRADES INNOVATION CONFERENCE

"As an opportunity manager, improv training helps me think on my feet and react when my call objective gets thrown off. It allows me to make a choice and confidently commit."

"Improv has allowed me to interact with a variety of personalities in many different situations, better preparing me for the unpredictable nature of work relationships... This skill has taught me how to read my audience, and how to adjust my approach in interacting with them to be strategic about my goals."
